	Non-Aboriginal identity	189,310	91,365	97,945	0	0	0	189,310	91,365	97,945

Note:

<sup>1</sup> Users should be aware that the estimates associated with this variable are more affected than most by the incomplete enumeration of certain Indian reserves and Indian settlements in the National Household Survey (NHS). In 2011, there were a total of 36 Indian reserves and Indian settlements that were 'incompletely enumerated' in the NHS. For these reserves or settlements, NHS enumeration was either not permitted or was interrupted before it could be completed, or was not possible because of natural events (specifically forest fires in Northern Ontario). For additional information, please refer to the Aboriginal Peoples Reference Guide, National Household Survey, 2011.
