Notes:

In order to make SHS estimates comparable over time, the 2010, 2011, 2012 and 2013 SHS estimates have been revised using the population projections based on the 2011 Census. The entire weighting process is thus standardized for the years 2010 to 2016. For more information, please see the following link to the Statistics Canada Daily :

Data not strictly comparable to pre-2010 data due to methodology changes. For more information about survey methodology, data quality, variable definitions and data products, see the Survey of Household Spending User Guide (catalogue number 62F0026MIE) available on the Statistics Canada website.
