Footnotes:

¹ Age 'Age' refers to the age of a person (or subject) of interest at last birthday (or relative to a specified, well-defined reference date).

² Gender: Gender refers to an individual's personal and social identity as a man, woman or non-binary person (a person who is not exclusively a man or a woman). Gender includes the following concepts: gender identity, which refers to the gender that a person feels internally and individually; gender expression, which refers to the way a person presents their gender, regardless of their gender identity, through body language, aesthetic choices or accessories (e.g., clothes, hairstyle and makeup), which may have traditionally been associated with a specific gender. A person's gender may differ from their sex at birth, and from what is indicated on their current identification or legal documents such as their birth certificate, passport or driver's licence. A person's gender may change over time. Some people may not identify with a specific gender.

³ This category includes persons whose reported gender corresponds to their reported sex at birth. It includes cisgender (cis) men and women.

⁴ This category includes persons whose reported gender does not correspond to their reported sex at birth. It includes transgender (trans) men and women. Non-binary persons are excluded.

⁵ This category includes persons whose reported gender is not exclusively male or female.
