Footnotes:

¹ Age 'Age' refers to the age of a person (or subject) of interest at last birthday (or relative to a specified, well-defined reference date).

² Gender Gender refers to an individual's personal and social identity as a man, woman or non-binary person (a person who is not exclusively a man or a woman). Gender includes the following concepts: gender identity, which refers to the gender that a person feels internally and individually; gender expression, which refers to the way a person presents their gender, regardless of their gender identity, through body language, aesthetic choices or accessories (e.g., clothes, hairstyle and makeup), which may have traditionally been associated with a specific gender. A person's gender may differ from their sex at birth, and from what is indicated on their current identification or legal documents such as their birth certificate, passport or driver's licence. A person's gender may change over time. Some people may not identify with a specific gender.

³ Given that the non-binary population is small, data aggregation to a two-category gender variable is sometimes necessary to protect the confidentiality of responses provided. In these cases, individuals in the category "non-binary persons" are distributed into the other two gender categories and are denoted by the "+" symbol.

⁴ Ethnic or cultural origin Ethnic or cultural origin refers to the ethnic or cultural origins of the person's ancestors. Ancestors may have Indigenous origins, or origins that refer to different countries, or other origins that may not refer to different countries.

⁵ Ethnic or cultural origin Ethnic or cultural origin refers to the ethnic or cultural origins of the person's ancestors. Ancestors may have Indigenous origins, or origins that refer to different countries, or other origins that may not refer to different countries.

⁶ This category includes men (and/or boys), as well as some non-binary persons.

⁷ This category includes women (and/or girls), as well as some non-binary persons.

⁸ Ethnic or cultural origin" refers to the ethnic or cultural origins of the person's ancestors. Ancestors may have Indigenous origins, origins that refer to different countries or other origins that may not refer to different countries. Total ethnic or cultural origin responses are the sum of single and multiple responses for each origin. Total response counts indicate the number of persons who reported a specified origin either as their only origin or in addition to one or more other origins. The sum of all ethnic or cultural origin responses is greater than the total population estimate because of the reporting of multiple origins. For more information on ethnic or cultural origin variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Ethnic or Cultural Origin Reference Guide, Census of Population 2021."

⁹ A single ethnic or cultural origin response occurs when a person provides one origin only.

¹⁰ A multiple ethnic or cultural origin response occurs when a person provides two or more origins.

¹¹ "Ethnic or cultural origin" refers to the ethnic or cultural origins of the person's ancestors. Ancestors may have Indigenous origins, origins that refer to different countries or other origins that may not refer to different countries. This variable shows the detailed responses to the ethnic or cultural origins question. The sum of the ethnic or cultural origins in this table is greater than the total population estimate because a person may report more than one ethnic or cultural origin in the census. In general, data for an ethnic or cultural origin are included in this variable if the estimate is approximately 500 or higher. Because of computer system constraints, the following ethnic or cultural origin categories that include special characters cannot be presented correctly: Kwakwaka'wakw, n.o.s.; Namgis; Kwakwaka'wakw origins, n.i.e.; Sto:lo; and WSA NEC (Saanich). For the correct spelling of these names, please go to www.statcan.gc.ca/en/subjects/standard/otherclass-alpha/origins2021spchar. For more information on ethnic or cultural origin variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Ethnic or Cultural Origin Reference Guide, Census of Population, 2021.
