9191 International and other extra-territorial public administration	0	0	0

Footnotes:

¹ Labour force status Labour force status refers to whether a person was employed, unemployed or not in the labour force during the reference period. The labour force consists of persons who contribute or are available to contribute to the production of goods and services falling within the System of National Accounts production boundary.

² Age 'Age' refers to the age of a person (or subject) of interest at last birthday (or relative to a specified, well-defined reference date).

³ Gender Gender refers to an individual's personal and social identity as a man, woman or non-binary person (a person who is not exclusively a man or a woman). Gender includes the following concepts: gender identity, which refers to the gender that a person feels internally and individually; gender expression, which refers to the way a person presents their gender, regardless of their gender identity, through body language, aesthetic choices or accessories (e.g., clothes, hairstyle and makeup), which may have traditionally been associated with a specific gender. A person's gender may differ from their sex at birth, and from what is indicated on their current identification or legal documents such as their birth certificate, passport or driver's licence. A person's gender may change over time. Some people may not identify with a specific gender.

⁴ Given that the non-binary population is small, data aggregation to a two-category gender variable is sometimes necessary to protect the confidentiality of responses provided. In these cases, individuals in the category "non-binary persons" are distributed into the other two gender categories and are denoted by the "+" symbol.

⁵ Industry (based on the North American Industry Classification System [NAICS] Canada 2017 Version 3.0) Industry refers to a generally homogeneous group of economic producing units, primarily engaged in a specific set of activities. An activity is a particular method of combining goods and services inputs, labour and capital to produce one or more goods and/or services (products). In most cases, the activities that define an industry are homogeneous with respect to the production processes used.

⁶ Class of worker Class of worker refers to whether a person is an employee or is self-employed. The self-employed include persons with or without a business, as well as unpaid family workers.

⁷ This category includes men (and/or boys), as well as some non-binary persons.

⁸ This category includes women (and/or girls), as well as some non-binary persons.

⁹ Class of worker including job permanency refers to whether a person is a paid employee or is self-employed. Employees' positions are further classified as either permanent or temporary.

¹⁰ Refers to the general nature of the business carried out in the establishment where the person worked. The industry data are produced according to the North American Industry Classification System (NAICS) Canada 2017 Version 3.0.

¹¹ Includes persons aged 15 years and over who never worked for pay or in self-employment, or last worked for pay or in self-employment prior to 2020.

¹² Includes persons aged 15 years and over who have worked at some point in time between January 2020 and May 2021.

¹³ The code and title of this category are not found in the North American Industry Classification System (NAICS) 2017; this category is needed due to the combination of NAICS subsectors performed during the coding process.

¹⁴ The code and title of this category are not found in the North American Industry Classification System (NAICS) 2017; this category is needed due to the combination of NAICS industry groups performed during the coding process.

¹⁵ The code and title of this category are not found in the North American Industry Classification System (NAICS) 2017; this category is needed due to the combination of NAICS industry groups performed during the coding process.

¹⁶ The code and title of this category are not found in the North American Industry Classification System (NAICS) 2017; this category is needed due to the combination of NAICS industry groups performed during the coding process.

¹⁷ The code and title of this category are not found in the North American Industry Classification System (NAICS) 2017; this category is needed due to the combination of NAICS industry groups performed during the coding process.

¹⁸ The code and title of this category are not found in the North American Industry Classification System (NAICS) 2017; this category is needed due to the combination of NAICS industry groups performed during the coding process.

¹⁹ The code and title of this category are not found in the North American Industry Classification System (NAICS) 2017; this category is needed due to the combination of NAICS industry groups performed during the coding process.

²⁰ The code and title of this category are not found in the North American Industry Classification System (NAICS) 2017; this category is needed due to the combination of NAICS industry groups performed during the coding process.
