With the January 2019 data release, the Survey of Employment, Payrolls and Hours (SEPH) began using the 2017 North American Industry Classification System (NAICS) Version 3.0 instead of NAICS 2017 Version 2.0. Data were revised historically back to 2001. At the same time, seasonally adjusted data were revised based on the latest seasonal factors. Historical revisions were also made to a small number of industries by province and territory. For more information please see the following link to Statistics Canada, DAILY:
